S. 2248 with a Roe amendment in the nature of a substitute

Title I – Education

Sec. 101. Inclusion of certain additional periods of active duty service for purposes of suspension of charges to entitlement during periods of suspended participation in Department of Veterans Affairs Vocational Rehabilitation Programs: This provision would amend title 38, U.S.C., so that when a reservist receiving vocational rehabilitation program assistance is mobilized in support of a national emergency or a preplanned operational mission, any period of training in which they do not receive credit for that training because of the mobilization will not be counted against their overall use of the vocational rehabilitation program benefit.

Sec. 102. Provision of monthly housing stipend information under post-9/11 Educational Assistance Program: This provision would require the Secretary to provide electronic proof to a veteran that they will be receiving housing payments from VA under the GI Bill ® as a source of income so that the veteran can provide this proof to a landlord when applying to rent a home.

Sec. 103. Disapproval for purposes of educational assistance programs of Department of Veterans Affairs of certain courses of education that do not permit individuals to attend or participate in courses pending payment: This provision would require that in order for a school or training program to be approved for GI Bill ® benefits they must adopt a policy that disallows the school or training program from imposing a late fee, denial of access to facilities, or other penalty against a veteran or eligible dependent due to a late payment of tuition and/or fees from VA. This would only apply if the payments have not been received within 90 days of the beginning of the term and the Secretary would have the authority to waive this requirement. Schools would be allowed to require students to provide documentation to ensure that they are entitled to GI Bill ® benefits.

The restriction on penalties would not apply in cases where the student owes additional payment to the school beyond the amount of the tuition and fee payment from VA to the school. VA would have to make payments to schools no later than 60 days after receiving the tuition and fee certification from the school, and they would have to report semiannually to Congress any cases in which VA fails to make such payments within 60 days of certification.

Sec. 104. Provision of information on required additional actions to allow individuals to stay enrolled in courses of education pending receipt of educational assistance from Department of Veterans Affairs: This provision would require that VA provide information on the GI Bill ® comparison tool for schools that require additional documentation to provide protection against adverse action against a student due to a late payment of tuition and/or fees from VA.

Calculation of monthly housing stipend under high technology pilot program based on location of campus where veteran attends classes: This provision would provide a technical change to section 116 of the Harry W. Colmery Veterans Educational Assistance Act of 2017 to align the policy for calculation of the monthly housing allowance paid to students participating in the VET-TEC pilot to align with section 107 of the law which requires VA to calculate the housing payments based on where the student was taking the majority of their classes.
